2. ARCHITECTURAL CONTROL. No building shall be erected, placed or altered on any lot until the construction plans and specifications and a plan showing the location of the structure shall have been approved by the Architectural Control Committee as to quality of workmanship and materials, harmony of external design with existing structures, and as to location with respect to topography and finish grade elevation. No fence, wall or hedge shall be erected, placed or altered on any lot nearer to any street than the

minimum building setback line unless similarly approved. Approval shall be as provided in Paragraph 16 hereof.

3. DWELLING COST, QUALITY AND SIZE. No dwelling shall be permitted on any lot at a cost of less than \$40,000.00 based upon cost levels prevailing on the date these covenants are filed of record, it being the intention and purpose of the covenant to assure that all dwellings shall be of a quality of workmanship and materials substantially the same or better than that which can be produced on the date these covenants are recorded at the minimum cost stated herein for the minimum permitted dwelling size. The ground floor gross area of the main structure, exclusive of one-story open porches, basements, garages and other accessory structures, shall be not less than 1200 square feet for a one-story dwelling nor less than 1450 square feet for a dwelling of more than one story.

e. For the purposes of this covenant, eaves, steps and open porches shall not be considered as part of a building, provided, however, that this shall not be construed to permit any portion of a building on a lot to encroach upon another lot.

6. EXCEPTIONS. With written approval of the Architectural Control Committee, a one-story attached garage may be located nearer to a street than above provided, where the natural elevation of the lot along the established minimum building setback line is more than either 8 feet above or 4 feet below the established roadway level along the abutting street and where in the opinion of said Committee, the location and architectural design of such proposed garage will not detract materially from the appearance and value of other properties. 7. COMPLIANCE WITH CITY ZONING ORDINANCE. Any construction or use of the real property described in these covenants shall comply with the Zoning Ordinance of Green River, Wyoming, as passed, approved and adopted by the City Council of Green River, Wyoming, on the 24th day of October, 1979.

Within these easements, no structure, planting or other material shall be placed or permitted to remain which may damage or interfere with the installation and maintenance of utilities, or which may change the direction of flow of drainage channels in the easements, or which may obstruct or retard the flow of water through drainage channels in the easements. The easement area of each lot and all improvements in and upon it shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or utility company is responsible.

9. NUISANCES. No noxious or offensive activity shall be carried on upon any lot, nor shall anything be done thereon which may be or may become an annoyance or nuisance to the neighborhood.

10. TEMPORARY STRUCTURES. No structure of a temporary character, trailer, basement, tent, shack, garage, barn or other outbuilding shall be used on any lot at any time as a residence, either temporarily or permanently. 17. TERM. These covenants are to run with the land and shall be binding upon all parties and all persons claiming under them for a period of Twenty (20) years from the date these covenants are recorded, after which time said covenants shall be automatically extended for successive periods of Twenty (20) years each, unless an instrument signed by a majority of the then record owners of the lots has been filed of record, which agrees to change said covenants in whole or in part.

18. ENFORCEMENT.
